T+R Generator Site, 81 Keers Lane

New Madam, Further to your letter of 28 August I am still of the opinion that this development is not appropriate to the Keers Lane / Gravett Lane area. The existing properties are mainly small terraced or semi detached houses and the infrastructure is poor - narrow roads, no public transport, shops etc.

Granting permission for the building of this small estate would possibly open the way for the development of the whole Liddington Lane area.

Yours sincerely
