Your Ref: 07/P/01809

Dear Sir/Madam

**Re: T&R GENERATORS 81, KEENS LANE, GUILDFORD, GU3 3LS**

**Waste Comments**

Thames Water would advise that with regard to sewerage infrastructure we would not have any objection to the above planning application

Surface Water Drainage - With regard to surface water drainage it is the responsibility of a developer to make proper provision for drainage to ground, water courses or a suitable sewer. In respect of surface water it is recommended that the applicant should ensure that storm flows are attenuated or regulated into the receiving public network through on or off site storage. When it is proposed to connect to a combined public sewer, the site drainage should be separate and combined at the final manhole nearest the boundary. Connections are not permitted for the removal of Ground Water. Where the developer proposes to discharge to a public sewer, prior approval from Thames Water Developer Services will be required. They can be contact on [REDACTED] Reason - To ensure that the surface water discharge from the site shall not be detrimental to the existing sewerage system.

**Water Comments**

With regard to water supply, this comes within the area covered by the Three Valleys Water Company. For your information the address to write to is - Three Valleys Water Company P.O. Box 48, Bishops Rise, Hatfield, Herts, AL10 9AL [REDACTED]

Yours faithfully
