Housing Trajectory	5

1. Introduction

- 1.1 Paragraph 78 of the NPPF states that local planning authorities should identify and update annually a supply of specific deliverable sites sufficient to provide a minimum of five years' worth of housing against their housing requirement set out in adopted strategic policies. This forms the Council's assessment of its land supply position as at 1 April 2025.

2. Calculating the five-year requirement

- 2.1 The Local Plan: strategy and sites 2019 (LPSS) was adopted on 25 April 2019 with an annual housing requirement of 562 dwellings per annum (2015 – 2034). The base date of the LAA 2025 is 1 April 2025, which is after the LPSS's fifth anniversary. For that reason, the five-year housing land supply figure is now assessed against the local housing need figure calculated using the standard method set out in the National Planning Practice Guidance¹. This is currently calculated as 1,168 dwellings per annum.

¹ Available online at: [Housing and economic needs assessment - GOV.UK](https://www.gov.uk/government/publications/national-planning-practice-guidance)

3. The five-year housing land supply

- 3.1 Section 4 of the LAA sets out the components of housing supply that are anticipated to be delivered within the first five-year period (namely sites assessed as being 'deliverable'). This is a mixture of planning permissions and sites identified in the LAA. The table below provides a breakdown of how the five-year housing supply has been calculated.

Step	Calculation	Variable	Value
A	-	Annual requirement	1,168
B	A * 5	Housing requirement (1 April 2025 - 31 March 2030)	5,840
C	B * 1.05	Plus 5% buffer	6,132
D	-	Housing supply (1 April 2025 - 31 March 2030)	3,655
E	(D / C)*5	Five-year housing land supply	2.98

Table 1: Five-year housing land supply position 1 April 2025 - 31 March 2030

- 3.2 The Housing Trajectory is set out below. Information regarding how sites have been phased in the housing trajectory, together with a summary of the deliverability evidence, is set out in more detail in Appendix 7 of the LAA.
