

Draft major modification to Policy ID2: Supporting the Department for Transport's "Road Investment Strategy"

Proposed additional text for Policy ID2:

"(2) In the event that there is a material delay in the anticipated completion and or a reduction in scope of the A3 Guildford (A320 Stoke interchange junction to A31 Hog's Back junction) "Road Investment Strategy" scheme from that assumed in plan-making, or cancellation of the scheme, Guildford Borough Council will review its transport evidence base to investigate the consequent cumulative impacts of approved developments and Local Plan growth including site allocations on the safe operation and the performance of the Local Road Networks and the Strategic Road Network. In the case of material delay in the anticipated completion and or a reduction in scope in the A3 Guildford scheme, the review will consider the period up to the revised date of completion of the scheme. This review will be undertaken with input as appropriate from Surrey County Council and Highways England or any other licenced strategic highway authority appointed by the Secretary of State under the Infrastructure Act 2015. The outcome of this review will determine whether development can continue to be completed in accordance with the Local Plan trajectory or will determine whether there needs to be a review of the Local Plan."

Proposed additional text for reasoned justification of Policy ID2:

"4.6.18a The evidence at the time of the Examination of the Local Plan was that, without the implementation of the A3 Guildford scheme, the cumulative impacts of the quantum and distribution of development in the Local Plan could be considered to become severe during the second half of the plan period. Nevertheless, the evidence also indicates that individually, site allocations may be able to be occupied in whole or substantial part without creating a severe impact on the Strategic Road Network as there are potential alternative transport measures that may reduce or limit the impact of additional traffic on the A3. A review will determine whether the proposed transport measures or additional transport measures can mitigate the cumulative impacts of development traffic on the A3 either during the period that the A3 Guildford scheme is delayed, in response to a reduction in its scope or in the event of its cancellation. If a review determines that transport measures are not able to mitigate a severe impact on the A3 then a review of the Local Plan is likely to be required."
